

# Preparation and update in Security Management

2022/2023

## Objectives

Provide participants with the (updated) knowledge on legislation, means, processes, systems and security measures so that they can enhance their professional performance within the scope of private security.

## Who should attend

The program has been designed for Security Managers aiming to renew their professional license, as well as all those wishing to know about or have updated knowledge on this matter.

The program also allows that those wishing to attend the Post-Graduation in Security Management to already complete some of its courses.

For security purposes, classes are taught online the ZOOM system.
