Structure

This program aims to provide participants with advanced level skills lectured by renowned experts in the field. The need for training has been made more relevant due to fast pace of digitization at national and international levels, which has given led to a gap in training this program aims to bridge. The program's structure aims to meet the actual needs of professionals and of the market through providing a practice-oriented approach which will allow participants to acquire the skills they need for their personal and their professional life.
